Limited Benefit Products and the Importance of Verifying Eligibility:

- Verifying Blue Cross and Blue Shield of Texas (BCBSTX) members' benefits and eligibility is more important than ever, since new products and benefit types entered the market. In addition to patients who have traditional Blue Cross and Blue Shield of Texas PPOs, HMOs, POS or other coverage plans, typically with high lifetime coverage limits, i.e., (\$1 million or more), you may also see patients whose annual benefits are limited to \$50,000 or less. These plans are called Limited Benefit products.
- Limited Benefit products work like traditional PPO products but with a smaller annual maximum benefit. Because of the smaller benefit cap, members with this coverage are more likely to exhaust their benefits over a year than with a traditional PPO with catastrophic coverage – making verification of these members' eligibility an important part of your processes.

How to Recognize Members with Limited Benefits Products?

Patients who have BCBSTX limited benefits insurance coverage carry an ID cards that has:

- A product name that can vary from Blue Plan to Blue Plan, but appears at the bottom of the ID card, within the **green stripe**
- A tagline in a **green stripe** at the bottom of the card
- A **black cross and/or shield** to help differentiate it from other ID cards

Sample ID card:

Please Note: Administrative Services Only (ASO) accounts can elect to utilize the new ID card above or continue with their existing ID cards.

How to Find Out Patients Benefits Limits if their Coverage is Limited?

Regardless of the benefit product type, we recommend that you verify patient's benefits and eligibility and collect any patient liability (*copayment, coinsurance, deductible and/or amount over member benefit coverage limit*).

Here are the steps:

- Electronically, submit a HIPAA 270 eligibility inquiry to BCBSTX at www.bcbstx.com or via an Electronic Data Interchange (EDI) transaction.
- By phone, call BCBSTX Provider Customer Service at **800-451-0287*** and **800-676-BLUE (2583)*** eligibility line for out-of-area members.

Whether you submit an inquiry electronically or by phone, you will receive the member's accumulated benefits to help you understand the remaining benefits left for the member. If the cost of services extends beyond the member's benefit coverage limit, inform the member of any additional liability they might have.

What Should I Do if the Patient's Benefit Coverage Limit is Met in the Middle of the Treatment?

Annual benefit limits should be handled in the same manner as any other limits on the medical insurance coverage. Any services beyond the covered amounts or the number of treatments might be member's liability. If a member exhausts the annual maximum benefit, you may not charge the member more than the current BCBSTX allowable amount. We recommend that you inform the patient of any potential liability they might have as soon as possible.

Who do I contact if I have additional questions about Limited Benefit Products?

If you have any questions regarding BCBSTX or any other Blue Plans' Limited Benefits products, contact BCBSTX at **800-451-0287***.
